A cleaner solution for
professional care

The Vala® disposable range

Reliable aids for professional nursing care

Whether it's in the hospital, nursing home or at home, professional care requires the right care products. The updated Vala disposable range, is perfectly suited to your requirements and with its large product selection, has the right solution for you.

Vala disposable products are made of high quality materials. Not only do they possess the softness of textile products, but they also ensure hygienic, professional care. This makes personal contact more pleasant and also ensures the comfort of those in need of care. As one-off products, they are cost and time-efficient as well as being easy to dispose of.

At a glance this means:

- Hygienic
- Gentle, high quality products
- Economical
- Easy disposal
- Protection for carers and those in need of care

The right solution for all nursing environments.

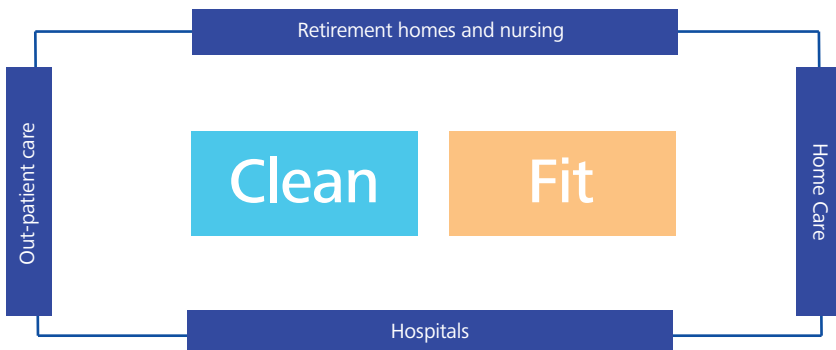

The Vala range is made up of four product groups, specially designed to meet specific requirements, and thereby offers the right solution for every situation.

Vala®Clean

Soft disposable wash gloves, washcloths and wipes suitable for professional washing of care home residents and patients.

Vala®Fit

Protective bibs for cleaner mealtimes, protecting clothes and bedding against spills.

Clean

Vala® Clean:

Tangibly softer for skin cleaning.

The carefully selected materials in the ValaClean range ensure professional body care. ValaClean wash gloves, washcloths and cleaning wipes are tangibly softer for cleaning mature skin.

As ValaClean products are intended for single use only, they minimise germ transfer and allow you to work according to hygiene regulations. They are easily disposed of and thereby entail no washing expenses.

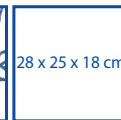

Fit

Vala® Fit

Keeping it clean.

ValaFit bibs and serviettes help keep patients and care residents clean during meal times so clothes, and bedding are protected and washing costs are reduced.
