

# Proxime!®

## Non-Border

## Expect more from your silicone foam dressing.

Proxime!® Non-Border is a silicone foam dressing that features a unique tapered edge. This unique design feature allows the dressing to lay smooth around wound edges while helping prevent exudate leakage.<sup>1</sup> Proxime!® Non-Border's silicone adhesive helps the dressing stay in place during bandage wrapping, is gentle on the skin and is easily removed.

It's unique design makes Proxime!® Non-Border an ideal dressing choice for management of moderate to high exudate wounds and for use under compression.<sup>2</sup>

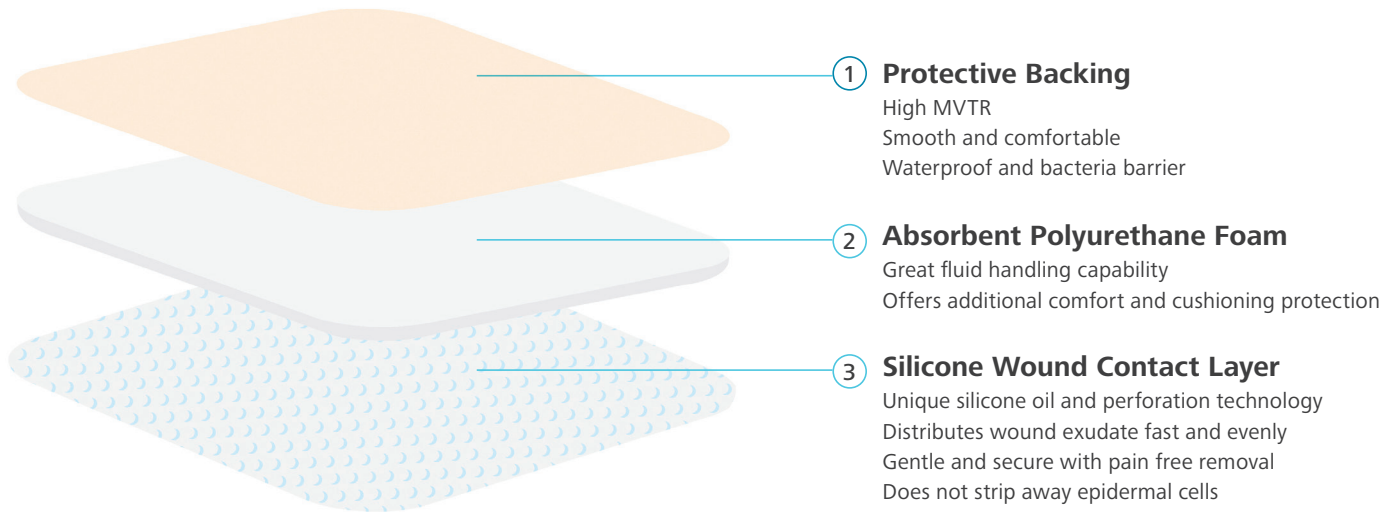

### Features and Benefits:

- Pain-free removal and easy to reposition
- Tapered edge design is ideal for use under compression
- Helps reduce the risk of maceration
- Fast exudate absorption
- Dynamic fluid management provides optimal moist wound environment

# Proxime!® Non-Border: Ideal for use under compression<sup>2</sup>

Tapered edge locks in moisture<sup>1</sup> while laying gently around wounds

Proxime!'s distinctive properties allow you to confidently **lift** and **reposition** the dressing while reducing the risk of adherence failure.

**High MVTR rate** supports good moisture balance.

Superabsorbent core supports **fast absorption** and helps minimize maceration risk.
